## **MOBILE BROADBAND SERVICES AMENDMENT REGULATIONS, 2024**

### **EXPLANATORY MEMORANDUM**

## 1. Introduction

- 1.1. In 2018, the Authority initiated a market inquiry into mobile broadband services in terms of section 4B of the ICASA Act and section 67 of the Electronic Communications Act, 2005 (Act No. 36 of 2005) ("**ECA**"). The purpose of the inquiry was to assess the state of competition in the provision of mobile broadband services and determine the need for regulatory intervention.
- 1.2. The inquiry was concluded with the publication of the Findings Document in the Government *Gazette* No. 44337 on 26 March 2021 and subsequently the publication of the Regulations and Reasons Document on 31 March 2022.
- 1.3. The Authority found that Vodacom (Pty) Ltd ("**Vodacom**") and Mobile Telephone Networks (Pty) Ltd ("**MTN**") are dominant in retail mobile services provided in regional geographic areas (provincial, split by urban and rural), wholesale site infrastructure access in local and metropolitan municipalities and wholesale national roaming services for coverage markets as defined in regulation 6. In this regard, the Authority imposed quarterly publication and information provision requirements on Vodacom and MTN.
- 1.4. On 26 September 2022, MTN lodged an application in the High Court of South Africa, Gauteng Division, Pretoria, under case number: 2022/026554. MTN seeks to review and set aside the Regulations in their entirety.
- 1.5. The Authority is of the view that some of the issues raised by MTN in its High Court application are regulatory oversights that can be resolved by amending the Regulations. Thus, the Authority proposes the amendments contained herein.

## **2. Reasons for the proposed amendments**

The purpose of this explanatory memorandum is to provide reasons for the amendments to the Regulations.

The Authority will not consider representations that are not relevant to the proposed amendments.

### **2.1. Amendment to regulation 7**

The following reasons are provided for the proposed amendment to regulation 7:

- 2.1.1. The Authority replaced "retail markets, wholesale site infrastructure access and wholesale national roaming service" with "relevant markets". The relevant markets refer to the markets identified in regulation 6 of the Regulations.
- 2.1.2. Furthermore, the Authority inserted "subject to confidentiality in terms of Section 4D of the ICASA Act" in order to make it explicit that Vodacom and MTN are not required to publish confidential information on their websites. Vodacom and MTN are required to publish non-confidential information on their websites and provide the Authority with all information including confidential information, subject to a request for confidentiality.
- 2.1.3. Any person who submits information to the Authority may request confidentiality, in terms of section 4D of the ICASA Act, on information to be published on their website and provided to the Authority. Vodacom and MTN are however referred to the Guidelines for Confidentiality Request and the Form, published on 17 August 2018 in *Gazette* No. 41839.

## **2.2. Amendment to regulation 7(e)-(g)**

The Authority repealed regulation 7(e) given that it didn't find any licensee with significant market power in the markets for the provision of Access Point Name ("APN") (i.e., Upstream market 3b) and Mobile Virtual Network Operator ("MVNO") (i.e., Upstream market 3a) services.

The Authority also repealed regulations 7(f). The Authority retains the power in terms of the applicable legislations to request the operator with SMP to provide an explanation if any category of retail price is below any wholesale price in respect of services supplied by operators with SMP.

The Authority also repealed regulation 7(g). The monitoring of prices shall be done by operation of the law as explained above.

## **2.3. Amendment to regulation 7(h)(iii)**

Regulation 7(h)(iii) erroneously made reference to regulation 7(a) and 7(b) instead of regulation 7(h)(i) and 7(h)(ii). The purpose of the amendment is to rectify these clerical errors and make references to the correct sub-regulations.

## **2.4. Amendment to regulation 7(h)(v)**

The Authority erroneously included lamppost, billboard and micro in regulation 7(h)(v) of the Regulations. Paragraph 135 of the Authority's Findings Document on Mobile Broadband Services Inquiry (Government *Gazette* No. 44337) excluded micro solutions, lampposts and billboards in the relevant product market for site infrastructure or site access market.
